Media Release

Lake of the Woods District Hospital

Relocation of the LWDH Obstetrical Service

The Lake of the Woods District Hospital Obstetrical Service will be relocating from the fourth floor to the second floor during the week of October 13, 2015.

This change in service location was part of the service changes announced publically in June. The hospital's Obstetrics – 2nd East - Rehab Clinical Integration Team has been hard at work this summer and fall planning for this move to the newly renovated space on the second floor. The Obstetrical service on 2 East will now be located next to the operating rooms providing for safer care and more timely transfers for women requiring a C-section.

The hospital would like to acknowledge and thank the Obstetrical service and 2nd East staff for their comments and suggestions in preparing for this move and service integration. We would also like to thank the Clinical Integration Team for their time and effort in making this happen.
